- Training on the manual override of the DDA lift.

Methods of delivery include:

Direct teaching, group discussion and feedback, practical demonstration and exercise to confirm understanding, verbal quiz.

Course Delivery – Mix and Match options:

- **Health and Safety Course**
- **Manual Handling Course**
- **Safe Banksman/Reversing Vehicle Operation Course**
- **DDA Lift & Wheelchair Loading Procedures Course**

The above half day courses (3 ½ hours in duration) can be delivered in any combination to produce a full seven-hour course for CPC requirements.

Please contact the EYMS Bus & Coach Training - Training Manager to discuss courses suited to your requirements or further information.

Course Receipts

All delegates completing a Periodic Training course will be issued with a receipt which details the amount of Periodic Training received during the course, the approved course title and the approved centre details. We will normally issue the receipt within 15 days of the course completion (as long as all course fees have been received from the delegate or company paying the fee).

Learners Needs

The EYMS Bus & Coach trainers will make formative checks on the level of understanding of all delegates taking part within the courses based on the mediums of discussion and feedback as the course progresses. The trainers will always ensure that every delegate fully understands and participates in all aspects & activities of the course and that it is delivered in a fair and reasonable way so as to fully engage every learner.

There are no formal assessments required on any of the courses as they are based on attendance only and no specific academic level required. All the delegates must hold a valid PCV licence as proof that they have the required entitlement to attend the course.
